Effective January 1, 2025

Important: This is a Summary of Benefits. Members should refer to the LGHIP Voluntary Insurance Plan Book for detailed information and limitations.

Voluntary Coverages

The Local Government Health Insurance Plan Voluntary Insurance Plan (LGHIP) includes vision, dental, and cancer coverage through Southland Benefit Solutions.

An eligible employee may enroll within 30 days of employment or during open enrollment by submitting an LGHIP Southland Enrollment Form (LG07) to their unit administrator. New employees' coverage will be effective according to the unit's effective date of coverage for health insurance. Existing employees and eligible retirees can elect coverage during open enrollment which will be effective January 1 of the following plan year. Coverage can also be canceled during open enrollment for an effective date of January 1 of the following plan year.

Eligible participants may enroll for either individual or family coverage. Outside open enrollment, dropping coverage requires a qualifying event (death, divorce, or otherwise losing dependent status). Coverage will be canceled at the end of the month of the qualifying event. Local Gov Health and Wellness requires proof of the qualifying event.

Dental Plan

This plan covers diagnostic and preventative services, as well as basic and major dental services.

Diagnostic and preventative services are not subject to a deductible and are covered at 100% (based

on reasonable and customary charges) and includes oral examinations, cleaning of teeth, fluoride applications for insured children to age 19, space maintainers, x-rays, and emergency office visits. Routine cleaning visits are limited to two visits per plan year.

Basic and major services are covered at 80% for individual coverage and 60% for family coverage (based on reasonable and customary charges) and includes fillings, general anesthetics, oral surgery not covered under a Group Medical Program, periodontics, endodontics, dentures, bridgework, and crowns. There is a \$25 deductible for family coverage for basic and major services, which is applied per person, per plan year with a maximum of three per family.

The dental plan administered by Southland offers a dental network program known as “DentaNet”. Under the DentaNet program members have the opportunity to use network dentists to save money. However, members enrolled in the dental plan still have the freedom to use any dentist they choose.

All dental services are subject to a maximum of \$1,250 per year for individual coverage and \$1,000 per-person-per-year for family coverage. Dental coverage does not cover pre-existing dentures or bridgework and does not provide orthodontia benefits. The dental coverage does not cover the replacement of natural teeth removed before a member’s coverage is effective. This plan does not cover temporary partials, implants and temporary crowns.

Why you should use the “DentaNet” network of dentists:

DentaNet, Southland’s dental network, offers local government employees and their families the largest independent statewide network of preferred dentists. Although members can choose any dentist they like, using a DentaNet dentist saves you money.

Member savings are obtained in both of the following ways:

- DentaNet dentists do not balance bill members the difference between the DentaNet negotiated fee schedule and what they normally charge.
- Services that require a copay are based on the DentaNet negotiated fee schedule.

Visit www.southlandbenefit.com to find a network dentist near you and start saving today.

Note: In order to obtain the DentaNet network savings described above, you must have Dental Plan coverage.
